

Dear Parent/Carer

**Online risks and safety awareness evening - Thursday 8/11/18 6pm**

The College promotes online safety and awareness in its teaching of Computer Science and through the Learning for Life curriculum. However, equally important is to highlight these risks and safety advice to parents and the wider community.

The College is inviting parents to an evening raising awareness of some of the risks young people face when using on-line devices and how these risks can be more safely managed. Many parents often feel ill-trained or unable to support their child's safe use of technology so the purpose of this evening is to provide parents with information on how they can get the support and advice they need.

If you are able to attend, please could you complete and return the reply slip below.

Yours sincerely

Mr M Andrews
